THE MARKETS SHOW A DECLINE.

Light, Smooth Butcher Cattle Steady at Last Week's Prices.

GOOD SHEEP FIRM AND HOGS LOWER

OFFICE OF PITTSBURG DISPATCH, \ WEBNESDAY, November 25. There were on sale at the East Liberty yards on Monday about 100 carloads of cattie, which were almost entirely common and low grade stock. No heavy primes were offered and very few good beeves. Light, tidy butcher stock weighing 1,100 to 1,300 pounds were in very short supply. A fair number of buyers were on hand, but markets opened decidedly in their favor, and they made the most of their opportunity in bearing markets. The weather was unfavorable to trade, the forepart of the week being stormy. Poultry being to the front for Thanksgiving purposes, the effect was manifest in a diminished demand from butchers. Altogether markets prove favorable to the buyer and prices were 15c per ewt. below last week's range, when it was thought that bottom was reached. The highest price at which carlond lots were sold was \$4 60. A few loads that were held at a nickel a pound were sent on in first hands for want of satisfactory offers. A carload of 1,300 lb Ohio cattle, fairly good, but light in flesh and heavy in bone, were sold at \$3.55. Had the bones been light and the flesh heavy, the same grade would have sold close to \$1.00 per cwt. above this

Fresh cows of high grade held up well to last week's prices, the top of the market being \$50 00 per head. Common stock was dull at inside prices. Calves maintained last week's prices, the range for grassers being 215c to 315c per lb and vealers 515 to 6c Good sheep and heavy lambs were steady at last week's prices, the price of sheep being \$5.00 per cwi and lambs \$5.10. One small bunch of extra lambs was sold at \$5 25. Receipts of hogs have been very large this week. Above 100 carloads have been on sale since Monday morning. On Thursday there were sales of Philadelphias at \$4 05, but since then prices have declined 15c per cwt. The top of the market this morning was \$3 99, and slow at that. A Live Stock Firm's Review.

The following is a report of the situation by Holmes, Rowlen, Briggs & Co.: We report 105 loads cattle on sale Monday. The quality was common. The attendance of buyers was fair, but owing to bad reports from New York and a week of thanksgiving, when game and poultry take the place of beefsteak and pork, we had to make concessions on all grades to even start the market. There were no prime heavy beeves effered, and but little demand for each, as we had no orders for export cattle this week. As the demand for our feeders and stockers is about supplied, and as such grades make up the largest of our receipts, those grades at anything like satisfactory prices. We quote good 1,300 to 1,400, at \$4.40 to \$4.80; good 1,100 to 1,200, a: \$3 75/64 00; mixed grades, 900 to 1,200, 82 75/63 50. Cows and bulls 2/6/3c; feeders, 1,000 to 1,200, \$3 25(a3 75; stockers, 600 to 900, \$2 00(a2 75; tresh cows and springers, \$20 00@45 00 per head; veal calves, \$5 75@6 25; heavy and grass calves,

Receipts of hogs are fair, with prices about, 5e lower on Monday than close last week. To-day buyers are off on account of Thanksgiving, which makes trade had at \$3 90@4 00 for select tops and \$3 80@3 85 for good mixed, and 83 65603 75 for York-

Receipts of sheep are fair and prices steady at \$4 80665 00 for 90 to 100-pound sheep, and \$4 0064 50 for 80 to 90 lbs, and common to fair at \$2 00@3 00. Lambs, \$4 50@5 25.

EVENING UP TRADES.

A Light Business on 'Change in Chicago News From Russia Pushes Up the Price of Wheat-November Corn Still Strong -Provisions Firm.

CHICAGO-Business was light in all of the pits of the Board of Trade to-day. Traders were inclined to even up their deals n view of the holiday. News affecting the price of wheat was generally bearish. Cables ere weak and lower. The accumulations in Great Britain showed a heavy increase during the past week, in spite of the decided decrease in the shipments from Russia and England. December open at 92449234c, against 920 c at the close yesterday, and re-mained quiet and steady for a time; then, under a fair demand from shorts to realize profits, the market grew firm and advanced

to 325 c.

A report was then received from New York that foreigners were free sellers there.
Offerings broke the price to 32c. During the last hour, however, there was a rally to 325 c.
on the strength of a dispatch from New York saying that a cable dispatch was published that Russia will have to import about 69,000,000 bushels of wheat, and that the Minister of the Interior had been dismissed by the Czar for concealing the gravity of the situation so long and allowing such ty of the situation so long and allowing such wheat to be exported. It made trader nervous, and the clo e was nearly at the top

—921/c.

The strength in November corn continued. There was very little to be had, and the price was advanced from 69c to 73c, with very limited transactions. A reaction followed to 71c, and then another bulge, which carried the price to 75c, at which it closed There were rumors that some of the largest shorts had effected private settlements at 72c. but the market did not show it. Year com started at 47½c, sold to 48½c, broke to 46½c, railied to and closed at 47c. May was steady at from 42½c to 43½c.

Outs were quiet and steady throughout the session.

session.

Hog products were inclined to weakness during the forenoon, but firmed up during the last hour and closed with insignificant changes from yesterday's last figures. The early weakness was due to the large receipts of hogs, and the subsequent firmness to the late strength in grains. late strength in grains

THE GOLD MOVEMENT.

One-Third of the Amount Exported Has Been Returned. The city banks did about an average business yesterday. There were no new feat-ures. Regular interest rates were main-

tained. Bank clearings were \$2,276, 032 76, and balances \$446,986 46. The Wall Street News remarks: "As matters stand the supply of money, and, what is even more important, the confidence of leaders are better here than at any of the great European centers. Nevertheless it is true that in spite of a balance of trade that is

that in spite of a balance of trade that is growing more and more in our favor we have thus far only received back about \$25,000,000 of the \$75,000,000 of gold which went from these shores to Europe during the first seven months of the year. It must, however, be remembered that Europe's absorption of our grain and provisions is a continuous and not an instantaneous process."

Interruptions, due to the congestion of shipping and distributing facilities, or to momentary financial disturbances abroad, must be reckoned from time to time. But there need be no fear that Europe will not pay up in hard cash for its food supplies. Whatever its own complications may be, or nowever it tries to delay the settlement, the advantage lies with the United States.

The Drygoods Market.

New York, Nov. 25.—Although on the eve of a holiday buyers in the drygoods market displayed increased interest in trade, and the indications pointed to activity in the near future. Transactions were not numerous, but of a good character with considerable new inquiry. Agents felt increased confidence in values as well as in trade. Fine and low grade bleached goods, fine and heavy yarn, brown cottons, cheviots and tickings were in demand. There may be no great movement this week, but if the weather favors a decided change may be marked next week. Prices were unchanged and generally steady. enerally steady.

THE CALIFORNIA BRIBERS

A Defective Indictment Causes Trouble in Extradition Proceedings.

SACRAMENTO, Nov. 25. - Governor Markham has uddressed to District Attorney Barnes, of San Francisco, a letter in regard to the attorney's request that the Governor should ask for the extradition of Chris A. Buckley and Samuel Rainey, who are in Montreal, and against whom indictments for bribery have been found by the San Francisco grand jury. Governor Markham says the offense charged is not included in the treaty with Great Britain, and prece-dents are all against making such a request on the ground of comity. Nevertheless he will forward the papers to the Secretary of

State at Washington for his action.

The Governor adds that the men's records are not well known in the East, and the indictment does not show how important this case really is. The men, if sur-rendered, could be tried only on the charge in the indictment. He thinks best, therefore, to hold the papers temporarily until the grand jury can present any further inlictments they may wish, or prepare affidavits showing why extradition is especially desirable in this case. Moreover, the case questioning the legality of the grand jury that found the indictment is now pending in the Supreme Court of the State, and he thinks it better to await the decision of the Court before asking for extradition.

A MINISTER BEARS FALSE WITNESS

He Turns Revenue Informer and Lands in the Penitentiary.

MACON, GA., Nov. 25 .- William Powell. a minister of the gospel, was yesterday con-victed of perjury in the United States District Court here and sentenced to five years in the Ohio Penitentiary and to pay a fine

of \$2,000 and costs.

The ministry proved an unprofitable profession to Powell and he sought to add to his income by becoming a revenue informer, but in his first case his duplicity was discovered, and the officers, instead of following a revenue to the covered of the covered ing up Powell's alleged revelations, turned on the track of the preacher and he was ar-rested. The prisoner broke down while be-ing sentenced and begged for mercy.

Boom in Philadelphia Gas.

Interviews were had yesterday with several real estate brokers in regard to the ousiness of the year. One of them said: "The year opened under great depression Money was scarce and confidence weak

pands. Citizens and outsiders will buy ground and build. The outlook for realty

several other brokers were spoken to, all of whom indorsed the above views. They were all in good spirits and cheerful over the prospect. In regard to values, one of them said: "There has been some marking up during the year, but not as much as in 1890, when it reached 25 per cent. Holders are firm, and there is no prospect of concessions. I think buyers understand this, and will not urge high prices as a reason for keeping out of the market next year." HOME SECURITIES.

A GOOD BUSINESS PREPARES BROKERS FOR THE HOLIDAY.

Liveliest Trading of the Week and More Ground Covered-Another Little Boom in Philadelphia Gas-Brokers in a Good Frame of Mind.

Yesterday's stock market was a fitting preparation for Thanksgiving Day. There was much in it to make the room traders retoice. Trading was the best for a long time, and it had a wider range.

There were no sales at the first call. At the second 10 shares of Philadelphia Gas changed hands at 12%, 10 at 12%, 50 Luster at

changed hands at 12%, 10 at 12%, 50 Luster at 11%, and \$3.050 Duquesne bonds at 90. After call 100 Pniladelphia Gas went at 12%. Sales at the third call were 05 Luster at 11% and 70 Philadelphia Gas at 12%. Before call 100 shares of Philadelphia were picked up at 12% and 50 Duquesne Traction at 16%. Philadelphia Gas advanced on a good display of buying orders, based on reports that the company has a good supply of fuel, is paying off its floating debt very fast, and is in better condition generally than at any previous time within a year or two. With the exception of Picasant Valley, which was a trifle weaker, and Pittsburg, which was stronger, the street railways were practically unchanged, as was the rest of the list.

A New York authority says Pittsburg and

tically unchanged, as was the rest of the list.

A New York authority says Pittsburg and Western's net earnings for September were only \$48,230, a loss of \$17,238, due to an increase of operating expenses of \$49,083. For the past four months the company has made heavy expenditures for improvements, which have been charged to operating expenses. This outlay has been made to prepare for the increased traffic soon to be received under the contract made in February with the Baltimore and Ohio Railroad Company, and it will not be needed again.

The feeling at the close indicated a further stiffening in Philadelphia Gas and Luster. It is known that orders are out for both, and the filling them cannot but stimulate both stocks. The Tractions gave promise of recovering lost ground. Bids and offers follow:

JUST BEFORE A HOLIDAY.

THE STOCK MARKET, IN CONSE-QUENCE, INTENSELY DULL.

No Features Among the Sluggish General List-Execution of Delayed Orders Causes Some Animation - Opening Gains, but Slight Closing Losses.

New York, Nov. 25 .- The stock market to ny was intensely dull throughout, except n the first half hour, as usual on the day preceding a holiday, and the active stocks fluctuated over an exceedingly narrow range, with no feature of any kind. On the whole, the tone was not firm, owing to some pressure to sell from the local trading elenent, even though the foreigners were dis posed to buy, and some covering of shorts ras done preparatory to an expected up-

ward movement after the holiday.
The early dealings were rendered more "The year opened under great depression. Money was scarce and confidence weak. Disaster followed disaster with alarming frequency. People were apprehensive of a general collapse. This was followed by one of the greatest strikes in the history of the city, which completely prostrated the building trades. Recovery was slow, but finally matters were straightened out. The reaction soon touched real estate and business revived. During the last half of the year there has been nothing to complain of. I think the year's record will show about as much money invested in realty as there was in 1890."

Another broker remarked: "I have done much better than I expected. The year opened so badly that I feared I would do little more than make expenses. In this I have been agreeably disappointed. My sales so far are nearly equal to those of last, year, and if December turns out well they will be larger. The situation is all right. The market is a little slow, but there is no weakness. I look for a general brightening up after the holidays. The city is full of improvement schemes, some of which will no doubt go through. The effect of the big crops will soon be felt. LUMBER IS QUIET AND UNCHANGED

OFFICE OF PITTSBURG DISPATCH, N. WEDNESDAY, Nov. 25.

COUNTRY PRODUCE (Jobbing Prices)-Supply of cheese is scarcely equal to demand, and prices at sources of supply are now about up to our quotations, which means that there must be an advance at an early day. Fresh-laid eggs are practically out of the market. Fall storage eggs are active at 25c per dozen, while freshaid stock is promptly taken at 28 to 30c per dozen. Owing to warm weather, the latter part of last week shipments of poultry from the West to this point were light, and, as we were dependent on nearby stock, the Thanksgiving turkey has been more expensive than for some years past. Supply of Florida oranges has been more than equal to supply for a week or two past, and markets are dull and slow. Bananas are not so plentiful as they have been of late, and choice stock is firm at quotations.
